

Diet Manual Update
MDA Board Meeting
January 30, 2009

Activities:

1. Spoke with Jean regarding a timeline for materials. She needs the updated manual about 3-4 weeks before the meeting so printing can be completed.
2. Sections that are being updated are “Nutrition Assessment” and “Enteral and Parenteral Nutrition.” I am including information on the Nutrition Care Process in the assessment section and the new ASPEN enteral nutrition guidelines in the nutrition support section.
3. Dietitians and clinical nutrition manager from Memorial Hospital in Gulfport have agreed to review completed sections.
4. I will be updating the revision schedule and the revision instructions.

Respectfully submitted,

Kimberly Barczak
